

Curriculum Vitae

Tshiamo Matiza

Cell: 0813556089 | Email: tmatiza19@gmail.com

Career Aspirations

I am an enthusiastic Software Test Analyst Intern with practical experience in software testing, development, and data analysis. I am proficient in SQL, Excel, defect tracking, execution and reporting, and possess foundational programming knowledge in Java, C#, JavaScript and PHP. I am passionate about using technology to enhance systems, produce reliable outcomes, and improve user experiences within a professional IT setting.

Personal Values and Character

- Confident and reliable individual with strong communication abilities.
- Performs efficiently in high-pressure situations.
- Follows instructions from supervisors carefully and asks for clarity when needed to prevent mistakes or delays.
- Highly organized, motivated, and proactive.
- Approaches all tasks with thoroughness and a strong sense of accountability.

Technical Competencies

- Databases: MySQL, SQL Server
- Data Analysis Tools: Microsoft Excel, Power BI (basic)
- Testing Tools: Swagger, Jira, Trello
- Tools: Visual Studio, NetBeans, VS Code, Github
- Programming: Java, C#, JavaScript and PHP

Education Background

Tertiary Education

Institution: Tshwane University of Technology

Course: Diploma in Computer Science

Year Obtained: 2021 – 2024

Tertiary Education

Institution: Tshwane University of Technology

Course: Advanced Diploma in Computer Science

Year Obtained: 2025 – 2026

Knowledge, Skills and Abilities

- Fundamental knowledge of programming languages: Java, C#, JavaScript and PHP
- Strong understanding of Software Testing principles and defect tracking
- Familiar with SQL, Excel, and basic data visualization (Google Sheets, Power BI)
- Data collection, cleaning, and interpretation skills
- Decision-making and critical thinking skills
- Analytical mindset with attention to detail
- Strong coordination and planning abilities
- Ability to work individually or in a team environment

Work Experience

Software Tester Intern—(OpenText)

June 2025 – Present

- Gaining practical experience in software testing, defect logging, and reporting.
- Creating and executing manual test cases for different web-based applications.
- Working with developers and BA leads to identify issues, document them, and perform retesting.
- Developing hands-on proficiency with tools like Jira, and Excel for test and defect management.
- Continuously improving skills in test documentation and reporting.
- Currently studying for the ISTQB Foundation Level and UFT One certifications.
- Broadening understanding of testing fundamentals, the SDLC, test design methods, and defect management processes.
