➤ PROFILE

I am an optimistic individual with excellent people's skills. I have majored in Programming languages such as JavaScript, Java, PHP, HTML, CSS and I have done Cisco Packet Tracer for Network Systems during my first year.

➤ LANGUAGES

Front End:

- JavaScript
- PHP
- HTML
- Angular
- CSS
- Kotlin

Back End:

- Java
- Oracle
- .NET Core
- Spring Web
- MVC
- C#

➤ EDUCATION

TSHWANE UNIVERSITY OF TECHNOLOGY

Diploma in Computer Science

Since 2021-2024

Advanced Diploma in Computer Science

2025-present

➤ BACK END EXPERIENCE

I have hands-on experience in developing innovative solutions, such as a pulse-regulating web application and an e-commerce site for street vendors, where I utilized technologies like PHP, JavaScript, Angular, and Spring Boot. My projects demonstrate my ability to handle both frontend and back-end tasks, ensuring seamless integration and functionality.

➤ WORK EXPERIENCE

● STUDENT DEVELOPER Est. January 2024 - Present

I am currently maintaining a school management system for Tshwane University of Technology called Student Academic Support System SASO for short using technologies like PHP, JavaScript, MySQL and CodeIgniter 3 as the sites frame work

- Cisco Security:
Cisco Umbrella (DNS-layer protection)
- Packet Tracer :
network configuration and security
- AWS Identity and Access Management (IAM):
practicing role-based access control
- AWS Web Application Firewall (WAF) :
securing web applications
- Developer tools:
Github
Proficient In:
- Linux(Ubuntu)
Windows
